DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Logan, Jr. (U.S. Patent NO. 5,626,389).

Logan, Jr. teaches a lifting toilet chair, comprising a base frame including an upstanding framework having a generally rectangular horizontal open space at its upper end defined by peripheral members; at least one support member overlying said base frame, said at least one support member being pivotally connected to a top front of said base frame and extending rearwardly beyond a top rear peripheral member of said base frame defining said open space; a toilet seat overlying said open space and fixedly secured to said at least one support member; and a pair of arm rests laterally flanking said toilet seat, wherein each of said arm rests is coupled at a rearward first point to said at least one support member and pivotally connected at a forward second point to said base frame, and wherein each of said arm rests has a hand grip portion extending forwardly beyond said second point, means for yieldably biasing said at least one support member to pivot upwardly away from said base frame, comprising means for limiting the upward pivoting of said at least one support member away from said base

frame to an angle of about forty-five (45) degrees to the horizontal.. (See Figures 18 and 20).

Claims 3 and 5-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kennedy, Alvis, Love et al, Baird, Holley, Baird, Williams, Ward et al, Bridges, Logan, Jr., White et al, Jones et al, House et al, Guguin, Houston et al, Ryan et al, Krapu, Phillips, Luckenbill, Ming-Hwa, Shea et al, and Shou teach lifting toilet chairs similar to the present invention
